Resources

Financial Position

Church income has been reasonably stable for a few years. There has been a small increase over the past two years.

The principal sources of income are:

- Offerings
- Rental from the two church residences
- Rental from hire of the hall
- Rental from the OSHC
- Rental from Bush Church Aid (office space)

Our current income is adequate to support one full-time Priest in Charge (/Rector), associated ancillary services and essential costs, including:

- part-time office and other support (i.e. cleaner, book keeper)
- necessary expenditure for routine maintenance,
- office equipment and supplies
- essential services (Electricity, phone, etc)
- ministry resources

Note: The church currently has funds set aside for infra-structure development and major works.

Parish Staffing Going Forward

- Considering the above, regarding finances and income, going forward the church's staffing will consist of:
 - Priest in Charge (/Rector).
 - Locums to cover services when priest is on leave.
 - Part-time office support (16 hours).
 - Ancillary support (bookkeeping / cleaning).

Property

The church owns two properties. There is a residence in Eight Mile Plains, and one on the Lister St property.

- The residence in Eight Mile Plains, is a four-bedroom brick and tile home. (Used previously by the Priest in Charge and to be rented out)
- The Sunnybank property has two street frontages, Lister St and Young St. The property consists of five house blocks. There are four buildings on that property:
 - The church - seats approximately 250 (the building at the front of photo).
 - A 4-bedroom brick and tile residence – to the left of the church (currently rented)
 - A hall – directly behind church. The hall roof has solar cells fitted.
 - Church office and the OSHC share the fourth building (rear of photo)

NOTE: Due to the age of all the buildings, they are costing the Parish a substantial amount to maintain.

A residence can be made available for the new PIC if required.
